suction

Oxford Advanced Learners Dictionary 8th Ed.

▪ **I. suc-tion** *BrE* ['sʌkʃn] ^m *NAmE* ['sʌkʃn] ^m **noun uncountable**

the process of removing air or liquid from a space or container so that sth else can be sucked into it or so that two surfaces can stick together

- Vacuum cleaners work by suction.
- a **suction pump/pad**

Word Origin:

[**suction**] early 17th cent.: from late Latin *suctio(n-)*, from Latin *sugere* 'suck'.

▪ **II. suc-tion** *verb* ~ **sth** (technical)

Main entry: ↑**suction** _{derived}

suction

Longman DOCE 5th Ed. (En-En)

suction /'sʌkʃən/ *BrE* ^m *AmE* ^m **noun** [uncountable]

[**Date:** 1600-1700; **Language:** Late Latin; **Origin:** *suctio*, from Latin *sugere* 'to suck']

1. the process of removing air or liquid from an enclosed space so that another substance is sucked in, or so that two surfaces stick together:

- My vacuum cleaner has very good suction.
- a **suction pump**

2. the force that causes a substance to be sucked into a closed space when the air or liquid already present is removed
