

**maple**['meɪp(ə)] *n*

- 1) *бom.* клён (*Acer gen.*)
- 2) древесина клёна

**maple**

Oxford Advanced Learners Dictionary 8th Ed.

**maple** [maple maples] *BrE* ['meɪpl] <sup>ˈ</sup> *NAmE* ['meɪpl] <sup>ˈ</sup> *noun*

1. **countable, uncountable** (also **'maple tree'**) a tall tree with leaves that have five points and turn bright red or yellow in the autumn/fall. **Maples** grow in northern countries.
2. **uncountable** the wood of the **maple** tree

Word Origin:

Old English mapel (as the first element of mapeltrēow, mapulder 'maple tree'); used as an independent word from Middle English.

**maple**

Longman DOCE 5th Ed. (En-En)

**ma** **ple** /'meɪpəl/ *BrE* <sup>ˈ</sup> *AmE* <sup>ˈ</sup> *noun*

[Language: Old English; Origin: mapul]

maple leaf

1. (also **maple tree**) **[countable]** a tree which grows mainly in northern countries such as Canada. Its leaves have five points and turn red or gold in autumn.
2. **[uncountable]** the wood from a maple
