which word?

These words all have almost exactly the same meaning. There are slight differences in register and patterns of use. If you **make sth clear/plain**, you do so deliberately because you want people to understand sth; if you **make sth obvious**, you usually do it without meaning to: I hope I make myself obvious. ◊ Try not to make it so clear/plain. In the expressions **clear majority**, **for obvious reasons**, **for no apparent reason** and **plain to see**, none of the other words can be used instead. You can have a **clear/an obvious/a plain case of sth** but not: an evident case of sth.
